

Nexus Cloud AI Enterprise Platform Proposal

Proposal for Enterprise Procurement Platform | Bid Ref: NC-2024-8841

Executive Summary

Nexus Cloud offers high-speed AI and automation infrastructure designed for modern enterprise workflows.

1. Platform Specifications & Integrations

Nexus Cloud features REST API integrations, event webhooks, and SAML 2.0 Single Sign-On.

Sandbox Tenant: Unlimited developer sandbox instances provided at no extra charge.

2. Security Audit & Compliance Statement

Security Compliance Status: Nexus Cloud currently maintains SOC 2 Type I compliance. Our comprehensive SOC 2 Type II audit is in progress with auditor fieldwork scheduled for completion in Q4 next year.

ISO Certification: Nexus Cloud holds active ISO 27001 certification across global operations.

Data Encryption: End-to-end AES-256 data encryption at rest and TLS 1.3 in-transit.

Data Residency: Production data hosted in US East/West with EU residency planned on future product roadmap.

Service Level Agreement: 99.9% uptime availability SLA across all cloud clusters.

3. Pricing & Contractual Details

Implementation Fee: \$20,000 rapid deployment onboarding package.

Annual Base License: \$125,000 per year base subscription tier.

Annual Support Fee: \$15,000 per year standard enterprise support.

Renewal Terms: Standard 3.0% annual escalation applied upon yearly contract renewal.

Liability Limitation: Standard aggregate liability capped at 6 months of paid software subscription fees.

Auto-Renewal: Contract automatically renews for 12 months with 60-day written cancellation notice.
